

Brewery from deep Gifu "Tenryo"

"Sake Salon" will offer you a chance to taste a sake from deep Gifu.

Matasuke Uenoda, the 9th generation kuramoto of **Tenryo-shuzo** (Gero, Gifu) will be the guest.

With his experience of working in the US for several years, he is trying to bring a new phase to this brewery with long history.

Gifu is a mountainous land, which means it is blessed with plenty volume of clean natural water. That is true for Tenryo-shuzo. It's super-soft natural water characterizes the quality of sake.

John Gauntner will be with you to explain about the charm of this attractive brewery.

The seats are limited for about 20 people, so please reply in a hurry.
